

Basic Detail Report

Title Two Men Near Partially Collapsed Building During Flood, Hartford

Date 1936

Primary Maker Thomas F. Oakes

Medium Photography; gelatin silver print on paper

Description Two men wearing hats and high rubber boots pose in front of a brick and wood frame building that is partially collapsed. The building appears to be a warehouse, probably for construction material. There are several long thin pieces of wood that appear to have been standing upright, but that fell over when the wall collapsed. There is another brick building in the background, with a ladder leaning against the roof, and a man at the top of the roof. The ground appears to be muddy, and there is an uprooted bush near their feet.
