Title Man's Boots

Date about 1955-1975

Primary Maker Top Notch

Medium Molded rubber, with synthetic machine-knit fabric lining and enamelled buckles

Description Black rubber boots to wear over shoes. The boots are open up the center front with adjustable, black enamelled metal buckles. Behind this slit opening is a wide pleat (rather than a tongue), which is attached on each side for the length of the opening so as not to allow in moisture. The sole of the boot is molded with a tread pattern of a double diamond grid. The boot is lined with a brown napped knit fabric. There is a small strip of yellow reflective tape attached to the top of each boot at center back and center front.
