Title Plate

Date 1950s

Primary Maker Homer Laughlin China Company

Medium Mechanically-molded earthenware with overglaze gilding and black enamel decoration

Description Round, heavy, cream-colored earthenware plate with a black enamel printed pattern in the center, surrounded by a gilded border at the rim.

The pattern is titled, "THE/ LEBANON MEETING HOUSE/ LEBANON, CONN." It shows a two-story brick church building with a portico supported by four columns. Above the portico, a spire rises about three or four stories above the

Basic Detail Report

building. There are trees on either side of the building and clouds in the sky

behind. This pattern is surrounded by an undecorated area, then a gilded border

of small, symmetrical, stylized flowers and leaves. Some of the gilding has worn

off the plate, and there are a small number of light scratches on the surface of

the plate.

Dimensions Primary Dimensions (diameter): 9 1/4in. (23.5cm)
