Basic Detail Report

Communion cups (1912.3.0.3-.8), and a baptismal bowl (1949.14.0). Each

communion cup has a flared rim, straight sides, and a rounded bottom with a round, molded foot. At one side of each cup is engraved "DDH/ Gift."; the center "D" is slightly higher and has two short lines below. The body of each communion cup is raised; there is a centerpunch on the underside of each cup. The foot is cast and soldered to the underside of the body. Communion cup .7 has three dents on the side. Centerpunch: A centerpunch is a small, recessed point made as the first step of a technique called raising, used to make silver hollowware. The silversmith marks the center of a silver disc with a punch, or centerpunch. Working out from that center point, the silversmith beats the silver disc with a hammer to form the shape of the finished object.

Dimensions Primary Dimensions (height x diameter at rim): 8 1/8 x 3 7/8in. (20.6 x 9.8cm)
