

Basic Detail Report

Title Half-Gallon Measure

Date 1822-1825

Primary Maker Timothy Boardman & Co.

Medium Pewter

Basic Detail Report

Description Cast pewter half-gallon measure with a tapered lip, a baluster-

shaped body, and a flared foot. The body of the measure is decorated with

incised lines; there are a pair of lines on the lip, and three lines around the

widest part of the body, and three just above the foot. The measure has an cast,

ear-shaped handle. At the bottom of the handle, a short cylinder and a diamond-

shaped plate attach it to the body of the measure; the handle is soldered onto

the body. There are file marks on the handle. There are light scratches over the

body of the measure, with additional deeper scratches at the widest points.

Dimensions Primary Dimensions (height x width with handle): 9 1/8 x 9 1/2in.

(23.2 x 24.1cm)
