6 ft. water curve — 12 ft. water Cve.

Reduced and Engraved by the King's Bureau

The map depicts the lower reaches of the Thames River in Connecticut, flowing south towards the Long Island Sound. Key locations marked along the river include Stony Point, Waterhouse Point, Long Rock, White Top Point, Croft Point, Trading Cove, and Croft Point again further down. A vertical line labeled 'Map North' indicates orientation. A scale bar shows distances up to 7 miles. Two lines represent different water levels: '6 ft. water curve' and '12 ft. water Cve.'. The map is signed 'Reduced and Engraved by the King's Bureau'.

Description Chart of the Thames River below Norwich, Connecticut, showing

water depth, water curves, sandbars, coves, points, shoals and flats. The

Shetucket River is located to the southeast of Norwich. Below the title is the seal

and motto of the Army Corps of Engineers, featuring the Corps Castle with three

towers, and the French word "essayons," or "let us try."
