

# Basic Detail Report

## Title Areas Quarantined for Gypsy Moth and Brown-Tail Moth

Date 1938

Primary Maker United States Department of Agriculture

Medium Lithography; black and colored printer's inks on wove paper

# Basic Detail Report

Description Map of the eastern United States and part of Canada, from Quebec

to the north, New Brunswick to the east, New Jersey to the south, and part of

New York to the west. States depicted are New York, New Jersey, part of

Delaware, and the New England states. Areas colored green on the map,

contained to New England, indicate those only lightly infested with the gypsy

moth, while pink, also contained to New England, indicates those generally

infested. The brown-tail moth infestation area is marked with a thick solid line,

and runs through Maine, Vermont, eastern Massachusetts, and encompasses all

of New Hampshire. On the right side of the sheet is an explanation of the gypsy

moth and brown-tail moth quarantine.

Dimensions Primary Dimensions (image height x width): 32 5/8 x 22 5/8in. (82.9 x

57.5cm) Sheet (height x width): 34 5/8 x 24 1/2in. (87.9 x 62.2cm)
