

Basic Detail Report

Title Map Showing the Glacial Geography of Connecticut

Date 1930

Primary Maker Richard Foster Flint

Medium Lithography; black and colored printer's inks on wove paper

Description Map of the state of Connecticut, including the Long Island Sound, showing the different landforms in the state in the recent and Pleistocene eras using colors and lines are used to depict them. Elevation is conveyed with contour lines, and rivers, lakes and ponds are also shown. Roads and city streets are shown, with dots probably indicating the locations of buildings.

Dimensions Primary Dimensions (image height x width): 38 3/4 x 53 1/2in. (98.4 x 135.9cm) Sheet (height x width): 41 1/8 x 55 1/2in. (104.5 x 141cm)
