

Title Exterior of Sheffield Scientific

Date probably about 1890

Primary Maker Horace Bushnell Cheney Sr.

Medium Photography; gelatin silver emulsion on plastic

Description Exterior view of Sheffield Scientific, a school of Yale College. There is a plain, two story building sitting to the right of a large, five story building that has decorative molding around the windows. A man wearing a jacket and Derby hat walks along the sidewalk in front of the buildings, heading to the left. There is a hitching post centered in the foreground of the image. The school buildings sit across from it on the other side of a wide, dirt road.
