Title Castle on a Hill in France

Date 1905-1915

Primary Maker Horace Bushnell Cheney Sr.

Medium Photography; gelatin silver emulsion on plastic

Description View of a castle-like structure with large walls and turrets that sits encircling the top of a hill. Below the walls there is a row of small buildings, built around the curve of the hill. Below that, in the foregroud of the image, there appears to be a walkway with walls on either side of it. There are two doors in the inside wall.
