

Basic Detail Report

Title Queensboro Bridge, New York

Date 1967

Primary Maker Richard Welling

Medium Photocopy; black ink on paper

Description Reproduction of a drawing of the Queensboro Bridge in New York

City. The bridge's masonry and steel girders are depicted in detail in the

foreground, with the distant towers sketched in less detail. There is a barge

passing under the bridge on the left and cars on the bridge's deck and parked

under it on the right.

Dimensions Primary Dimensions (image height x width): 10 7/8 x 13 7/8in. (27.6 x

35.2cm) Sheet (height x width): 10 7/8 x 13 7/8in. (27.6 x 35.2cm)
