

Basic Detail Report

Title Shirt studs

Primary Maker George Drisdale Jerome

Medium Metal

Description Four studs are oval in shape with incised concentric rings from the outside but leaving the center oval smooth. One stud is round in shape and has incised a pinwheel type design. The last stud is also round but with no design.

Attached at the back of each stud is a round disk to fit into the button hole on a shirt.

Dimensions Primary Dimensions (height x width x depth of oval studs): $1/2 \times 3/8 \times 1/8$ in. ($1.3 \times 1 \times 0.3$ cm) Primary Dimensions (diameter x depth of round studs): $1/2 \times 1/8$ in. (1.3×0.3 cm)
