

# Basic Detail Report

(Hartford, Conn., Feb. 28)--TUNNEL SITE--A proposed highway tunnel behind the state Capitol would be reduced from 1800 feet to 600 feet under a revised plan by the state Transportation Dept. The highway would connect Interstate 84, in bottom of picture, with I-91. DOT officials said Thursday the state tentatively had decided not to tunnel beneath the entire length of Bushnell Park, upper left, but remain above ground except for 500 feet directly behind the Capitol.
