**Rasic Detail Report** THE VISION A Puerto Rican Expression FLECHAS is developing a cultural of Center that will be home to the Library Three Cultures of Resources, an educational wing, studios for dance instruction and a museum of Afro-Puerto Rican art, crafts and historical documents. The multi-purpose Center will serve as the community's only permanent art gallery displaying visual arts ranging from silk-screen paintings to African drums and from traditional Vejigante masks to local artisans handcrafts. Young and old alike will learn from the exchange of arts and ideas, and will grow from sharing cultural history. It is our hope that the traditions, cuisine, culture, and arts of our forefathers will be passed down from generation to generation and used as a tool to unite
