Basic Detail Report

The new Interstate System is already preventing 90,000 accidents a year

These highways of tomorrow are today proving themselves 3 times as safe as other roads.

During the last year, the Interstate System has saved some 3,000 lives... prevented 60,000 injuries... reduced the accident total by 90,000.

And the driver benefits do not end here. Right now, the Interstate System has eliminated two full days of driving coast to coast.

There is new comfort and ease. You relax as never before when you steer a course over those smooth-riding stretches of modern concrete.

They'll stay smooth riding, too. Concrete on the new Interstate System highways offers the solid strength that helps to hold upkeep costs to a minimum.

Portland Cement Association.
