

Basic Detail Report

Title Schooners docked for winter overhaul, Narrows Island

Date 1890-1918

Medium Photography; nitrate negatives

Description Black and white photographic negative, view of John Beattie

Granite Works' schooners docked for winter at the back of Narrows Island, Guilford, Connecticut. Three schooner type sailing vessels are docked in a row, the masts of the front two schooners are down, the mast of the far schooner remains upright and rigged. View of the coastline and a portion of the Beattie Granite Quarry in the background.

Dimensions Primary Dimensions (overall height x width): 4 × 4 7/8in. (10.2 × 12.4cm)
