

Basic Detail Report

Title Dish

Date 1780-1810

Medium Molded cream-colored earthenware

Description Large, round, plain cream-colored earthenware dish, a type of ceramic known as creamware. The dish's rim has a raised feather edge, resulting in a scalloped edge, and a pierced decoration of leaves, diamonds, and dots. The glaze on the dish has some crazing and discoloration, giving it a mottled appearance.

Dimensions Primary Dimensions (diameter): 12 1/8in. (30.8cm)
