

# Basic Detail Report

## Title Perfume Bottle with Stopper

Date 1890-1930

Medium Pressed colorless non-lead glass with silver decoration

Description Pressed colorless glass perfume bottle and stopper with silver decoration. The perfume bottle (.a) has a flared rim, a cylindrical neck, a compressed spherical body, and a flat bottom. The perfume bottle has a raised, abstract pattern of wide lines and scrolls that have been painted with a silver substance. Silver has also been added around the edge of the rim. The perfume bottle is accompanied by a stopper (.b) with a domed finial, also with the same raised, silver decoration, above a tapered neck and a short cylindrical portion that fits into the bottle. Much of the silver decoration has worn off the raised lines on the perfume bottle and the stopper.

Dimensions Primary Dimensions (height including stopper x diameter): 6 3/4 x 4 1/4in. (17.1 x 10.8cm)
