Title Vought Kingfisher (OS2U) Powered By Pratt & Whitney Aircraft

Wasp Jr. (R-985)

Date 1942-1945

Primary Maker Calvin Picone Studio

Medium Serigraphy; colored printer's inks on wove paper

Description A floatplane with United States insignia has just landed in the ocean near an inflatable rubber raft with two soldiers wearing life jackets in it. A man stands on the wing of the airplane holding on a rope attached to a life preserver ring. An artillery shell has just landed in the water beside the plane causing a large splash. A second floatplane in the sky approaching the scene is under fire with bursts of smoke in the air around it. Low-lying islands are in the background.
