

Basic Detail Report

Title Santa Clara Province, Cuba

Date 1898

Primary Maker Brigadier General George Malpas Cole

Medium Lithography; black and red printer's ink on cotton

Description Map of most of the province of Santa Clara. Places are marked with their name and a circular symbol. Roads and railroads are shown. Physical features include islands and rivers. Water depth is measured in fathoms. Other numbers are shown around on the map, in the areas representing water. Some of the numbers have letters representing some kind of units of measurement, although what they are is unclear. In the top left is an inset index map showing all of the maps in the series.

Dimensions Primary Dimensions (image height x width): 38 7/8 x 23 3/4in. (98.7 x 60.3cm) Sheet (height x width): 41 3/4 x 26 7/8in. (106 x 68.3cm)
