

A detailed line drawing of a city skyline, featuring a prominent skyscraper under construction with a crane on top. The drawing is signed 'WELCH - 1990' in the bottom left corner. The style is a fine-line architectural sketch, showing various buildings of different heights and styles, including a large, modern skyscraper with a grid-like facade and a crane on its roof. The foreground shows lower-rise buildings, streets with cars, and a water tower. The background includes more distant buildings and a clear sky. The overall composition is a dense urban scene.

Title Third Avenue, New York

Date 1970

Primary Maker Richard Welling

Medium Drawing; black marker on paper

Description Drawing of the construction of a building on Third Avenue in New York City, with much smaller buildings around it in the foreground.
