

Basic Detail Report

Title Bulkeley Bridge Construction: Retaining Walls South of Morgan

Street, June 26, 1907

Date 1907

Primary Maker Unknown

Medium Photography; gelatin silver print on paper

Description Embankments and railroad tracks are under construction. A wooden form is at left. The completed portion of the wall is faced with stone blocks, apparently granite. Fill appears to be sand. A wooden construction shed is at the left. Smoke or steam rises from the roof. A crane is in the background.

Construction equipment is on the tracks. Workmen are in the right background.

One man uses a wheelbarrow. Lumber and piles of dirt and sand are nearby.

Commercial and residential buildings are beyond the embankment on the right.

Basic Detail Report

Utility poles, a smokestack, a large gas tank, and laundry hanging from

clotheslines are visible. The Connecticut River is on the left. A shed beside the

river has a sign that reads "Ice."

Dimensions Primary Dimensions (overall height x width): 6 5/16 x 8 1/4in. (16 x 21cm)
