

# Basic Detail Report

## Title Roof Steel Almost Completed

Date 1972

Primary Maker Richard Welling

Medium Drawing; black ink and colored markers on paper

Description Drawing of the construction of the Civic Center's roof in downtown

Hartford, Connecticut, from an elevated perspective. The roof consists of a

lattice-like network of beams with towers in each of the four corners and a crane

on the left side. There is a barrier around the construction site, one wall of which

is decorated with colorful advertisements. Hartford buildings are in the

background.

Dimensions Primary Dimensions (image height x width): 13 5/8 x 21 1/4in. (34.6 x

54cm) Sheet (height x width): 13 5/8 x 21 1/4in. (34.6 x 54cm)
