Medium Mechanically-molded ironstone with underglaze red decoration

Description Group of seven small, round, ironstone plates with an undulating rim. Each plate is decorated in the center with an underglaze red transfer-printed pattern titled, "Monte Video Connecticut". The circular pattern shows a man and a woman sitting on an outcropping of rock and grass in the foreground. In the middle distance are variously sized trees, a field, and a lake-shore on the right. In the right distance is a mountain, with the top of a tower peeking out from above the tree line. In the left distance is a low, white, two-story house. On each plate, the pattern is surrounded by a border that is printed at the rim. The elaborate border consists of large flowers and shells on a field of red. The border's undulating outer edge has a series of small circles and lines. The inner edge of the border is irregular, being wide in some places and narrow in others. Plate .1 has a chip in the rim. Plate .2 has some crazing and a small chip in the foot now surrounded by a small area of discoloration. Plate .3 has overall crazing and light brown discoloration, as well as a small chip in the foot. Plate .4 has a crack running almost all the way across the plate. Additionally, there is a chip on the underside of the rim and additional small blemishes on the outside edge of the rim. Plate .5 has a crack at the rim and crazing, which has resulted in spots of light brown discoloration to the ceramic. Plate .6 has overall crazing
