

Basic Detail Report

Title Chamberstick

Date early 1930s

Primary Maker Fraunfelter China Company

Medium Mold-formed vitrified china with overglaze blue enamel

Description Round vitrified china chamberstick with overglaze printed blue enamel. The chamberstick consists of a small circular tray, about the size and shape of a saucer. In the center is a short candlestick holder with a rim. A circular handle highlighted by a short line of blue enamel interrupts the rim of the tray portion. The rim is decorated with a border consisting of a thin line outside a thick line, both printed in dark blue enamel. At one point, opposite the handle, this border is interrupted by a small dog that is printed in light blue enamel. The dog is sitting on its hind legs and facing left. There are a few small dark spots on the surface of the chamberstick, probably the result of imperfections in the ceramic.

Dimensions Primary Dimensions (height x diameter): 2 1/2 x 5 1/2in. (6.4 x 14cm)
