Medium Mold-formed porcelain with a pink glaze

Description Oval, porcelain stamp box with a pink glaze. The stamp box has an oval-shaped foot, vertical sides, and a slightly domed top with a slit running the length of the box. The sides and top are decorated with pink glaze, while the bottom of the box is not. The bottom has a circular cut-out which may have been moveable at one time. There are a few spots of a pink substance, perhaps glaze, visible between the foot and the circular cut out. There is one small spot, at one end of the top of the stamp box, where the glaze did not adhere to the porcelain.
