## Title Bottle

Date 1800-1830

Primary Maker Unknown

Medium Blown olive green glass

Description One half to one gallon capacity, blown olive green glass bottle. The bottle has a string ring at the rim, a short, slightly tapered neck, sloping shoulders, a spherical body, and a medium kick with a slight pontil mark on the bottom. The bottle leans slightly to one side, resulting in an irregular slope to the shoulders. There are many small bubbles and seeds, or pieces of unvitriified matter, in the glass. There is a ring of light scratches and wear on the exposed bottom edge. Kick: An indentation in the bottom of a drinking glass, bottle, or other glass object. Pontil mark: A rough place on a blown glass object where the solid metal rod, or pontil, is cracked off the object after final shaping and decoration. Pontil marks can be polished to achieve a smooth surface.
