

Basic Detail Report

Title **Reproduction Tiebacks**

Date about 1910-1930

Primary Maker Unknown

Medium Pressed green glass; pewter and iron

Description Pair of reproduction tiebacks, each made of pressed green glass with a pewter shank. The tiebacks each have a raised six-petaled rosette on top, embellished with a three-part fan between each petal and with raised circles outlining the petals. The back of each tieback has a raised hexagonal area in the center, with an impression that corresponds to each petal on the front. Each tieback has a small round metal knob in the center of the rosette that extends through the tieback to a pewter shank in the back that ends in an iron screw. There is a moderate amount of rusting over all the surfaces of each shank.

Dimensions Component (diameter x length of .1): 3 3/8 x 3 1/2in. (8.6 x 8.9cm)

Component (diameter x length of .2): 3 3/8 x 4in. (8.6 x 10.2cm)
