

Basic Detail Report

Title Stopper

Date 1780-1820

Primary Maker Unknown

Medium Blown colorless non-lead glass

Description Blown colorless non-lead glass stopper with a compressed globular finial above a ground tapered portion that fits into the neck of a decanter or case bottle. The stopper has the remnants of gilding at the top of the finial and around the top of the ground tapered portion. The widest point of the finial has a band of light scratches.

Dimensions Primary Dimensions (height x diameter): 2 x 1 1/4in. (5.1 x 3.2cm)
