Title Sampler

Date 1824

Primary Maker Emeline Webster

Medium Embroidery; silk threads on a plain-woven, undyed linen ground

Description Sampler worked in brick red, yellow, medium brown, dark green, pink, and black silk threads on a plain-woven linen ground in cross and other stitches. The sampler is rectangular, oriented horizontally. It is laid out with five rows of three alphabets and the numbers 1 through 9, over a horizontal band of pictorial motifs and an empty area within which there was probably going to be an inscription, over an inscription. The inscription is "[E]meline [W]ebster [a]ged 10 years West [H]artford - 1824". The horizontal band of pictorial motifs includes, from left to right, a rose, a right-facing bird atop a sprig, a large empty space, a left-facing bird atop a sprig, and a green leafy design. Certain lines of alphabets, numbers, and text are separated by various narrow borders, including straight and meandering lines. There is a four-sided border. The sampler is probably unfinished. The sampler has a 1/8-inch double-turned hem on the top, right side, and bottom edges, and selvedge on the left side edge. The sampler is not framed. Letters and Numbers: There are three alphabets and the numbers 1-9. The letters are uppercase block in alphabet 1, uppercase script in alphabet 2, and lowercase block in alphabet 3. The letter J is present in the first alphabet; the letter U is present in the first and third alphabets. Nine letters are repeated twice in the first alphabet: ACDJMNSVY; the second N is backwards.

Basic Detail Report

The letters GH, PQ, and YZ are missing from the second alphabet, though there

is space for them. Stitches: The principal stitch on the sampler is cross stitch

over two threads; it is also worked in cross over one thread, and satin stitches.

Condition: The sampler has light fading; the ground has darkened. It is probably

unfinished. It is difficult to tell whether it appears unfinished because it actually

is or because of stitch loss. There is some evidence that there were stitches in

the empty area. The sampler is not framed.

Dimensions Primary Dimensions (height x width of ground): 11 3/4 x 18 1/2in.
