

# Basic Detail Report

## Title Trick Paper Cone

Date 1858

Primary Maker Albert G. Walker

Medium Cardboard with orangy-brown and lime green paper

Description Cardboard cone that tapers from a narrow closed end to a wider open end. The cone is covered with orangy-brown paper. The open end had a lime green stripe of paper around it; the closed end also has a lime green stripe, with a serrated lower edge that folds onto the closed end. The cone is stitched together with tan colored thread; stitches all around the closed end hold the end piece on, and a vertical stitch down the seam hold the cone closed. The colored paper makes the stitches invisible from the exterior.

Dimensions Primary Dimensions (height x diameter): 4 7/8 x 2 1/2in. (12.4 x 6.4 cm)
