

Basic Detail Report

Title Souvenir Wheelbarrow

Date 1947

Primary Maker G. Fox and Co.

Medium Wood

Description A small wooden wheelbarrow souvenir. The base of the wheelbarrow is a single flat piece of wood with two carved handles, and a wooden wheel attached at the front with a wooden pin. There are two small wooden dowels used as legs attached near the handles. A wood platform appears to be nailed to the base forming the bed of the wheelbarrow. A piece of wood set into the base of the wheelbarrow near the wheel has been broken off; this appears to be part of the piece that formed the front side of the wheelbarrow.

Dimensions Primary Dimensions (height x width x depth): 2 1/8 x 3 x 7 5/8in. (5.4 x 7.6 x 19.4cm)
