

Basic Detail Report

Title Heating Radiator

Date 1916-1927

Primary Maker William G. Dudley

Medium Photography; gelatin emulsion on glass

Description A hot water heating radiator is inside what appears to be the basement of an industrial building. Several pipes are connected to the radiator, and a large basin stands on the floor underneath a pipe leading downward from the radiator, presumably to catch the water overflow. A hose is coiled on the wall at the right.

Dimensions Plate (height x width): 8 x 10in. (20.3 x 25.4cm)
