

Basic Detail Report

HOPE for millions

Millions who might otherwise be doomed need not die of cancer—if you and your fellow-citizens throughout the country will help.

Give to The American Cancer Society. Its great coordinated attack on cancer is opening a new era of hope.

- ➔ Detected in time, one-third of all cancer victims may be saved. The Society spreads knowledge which helps to save these people.
- ➔ It has launched the greatest program of cancer research the world has ever known.
- ➔ Through its state and local units it is helping to get better care for cancer patients in your vicinity.
- ➔ Funds are urgently needed to maintain and increase the attack.
- ➔ Join this great crusade. Guard those you love. Give to The American Cancer Society today.

By an Act of Congress and a Proclamation of the President of the United States, April has been designated as Cancer Control Month. Leading citizens and medical men endorse the American Cancer Society. Every thinking citizen of our great nation is urged to give so that the United States of America may continue to be a healthier nation.

1947 Goal: \$12,000,000

CONNECTICUT'S 1947 GOAL: \$275,000

To support cancer control in your community, information centers, detection clinics, nursing service, aid to patients and a great nationwide research offensive to find a cure for cancer.
