

Basic Detail Report

Title Milk Pan

Date 1795-1828

Medium Drape-molded redware with a lead glaze

Description Large, round, redware milk pan with a flat bottom, outwardly angled sides, and a slightly flared rim. The milk pan is glazed on the interior surface with an irregular, translucent brown, lead glaze; some of the glaze was wiped off of the rim. There are three chips in the glaze on the interior. The exterior of the milk pan was not glazed. There are several chips on the underside of the rim. There is one small area of repair on one lower side of the outside of the milk pan.

Dimensions Primary Dimensions (height x diameter): 5 3/16 x 17 1/2in. (13.2 x 44.5cm)
