## Title Thompsonville

Date 1849

Primary Maker Nathaniel Currier

Medium Lithography; printer's ink on wove paper, lined with linen

Description Map of Thompsonville, Connecticut, oriented east-west on the sheet so that Thompsonville appears to be located north of the Connecticut River, while it actually lies east. Houses and businesses are shown, as are buildings owned by the Enfield Manufacturing Company. At the top of the sheet is the factory pond, and crossing the stream that leads from it to the river is the New Haven, Hartford and Springfield Railroad line. On the left side is a numbered list of references that corresponds to many of the buildings on the map. The list contains the name of the store or the owner's name, how many stories it had, and what materials with which it was constructed.
