

Basic Detail Report

Title Preliminary Geological Map of Connecticut

Date 1906

Primary Maker Herbert E. Gregory

Medium Lithography; black and colored printer's inks on wove paper, lined with linen

Description Map of Connecticut's geological features, with contour lines indicating elevation. The map is divided into counties and towns. To the left of the map is a legend which categorizes and color- and line-codes the different types of rocks in the state.

Basic Detail Report
