Title Fish, Turtles, and Frogs

Date 1935 - 1937

Primary Maker Louis Grosvernor Frink

Medium Drawing; pencil, watercolor, and gouache on brown paper on cardboard

Description Drawing composite of various fish, turtles, and frogs. The fish depicted in the drawing include the following: the Northern Pike, recognizable with its elongated body, sharp teeth, pointed snout, yellow-green color with lighter spots along their flanks and a lighter belly; a shorter yellow fish with darker strips, distinct yellow fins and tail, and large eyes, resembling a Yellowtail Rockfish; an unidentified very short and small grey fish; an oval, chubbier but small orange fish with suction disk fins resembling a Cyclopterus. On the right of

Basic Detail Report

the painting are two tortoises, one depicted from its profile and the other facing viewers. On the foreground of the painting are two pond frogs and what seems to be an arthropod-like species.
