

Basic Detail Report

Title Additions to St. Peter's R.C. Church, Danbury

Date 1912

Primary Maker John J. McMahon

Medium Drawings; black ink, red ink, and pencil on tracing linen

Description Designs for alterations to the chancel and sacristy of a church

building include a basement plan, a main floor plan, elevations of the two sides, a rear elevation, a cross section, and a section through the stair hall. Plans show a boiler room, a new vestibule, loggia, and boy's sacristy. Details include new windows to match the existing windows, gas fittings, a stamped steel covering on the walls of the stair hall, and a slate roof.

Dimensions Sheet (height x width): 18 1/2 x 22in. (47 x 55.9cm)
