Basic Detail Report

Title Cup Plate

Date 1830-1840

Primary Maker New England Glass Company

Medium Pressed colorless lead glass

Description Pressed colorless lead glass cup plate with a round edge and a shallow, curved rim. A raised line of twisted rope follows the edge on the top surface; the remainder of the raised pattern is on the underside of the cup plate. The pattern begins in the center with a small flower, or sunburst, inside a six-pointed star; this is surrounded by five concentric borders. The first is a line of twisted rope. The second, wider border alternates between small flowers and

small hearts with a diamond pattern inside. The third border is another twisted rope, interrupted periodically by small semi-circles. The fourth border, found at the rim, consists of an undulating vine with large and small flowers. The final border is at the outside edge of the rim and consists of small leaves and berries on a straight vine. There is one small chip in the rim.

Dimensions Primary Dimensions (diameter): 3 3/4in. (9.5cm)
