Basic Detail Report

Title Cruet

Basic Detail Report

Date 1810-1830

Primary Maker Unknown

Medium Blown colorless lead glass

Description Blown colorless lead glass cruet with a flared rim, a cylindrical neck, a semi-barrel-shaped body, and a pontil mark and a shallow kick on the bottom. The shoulders and body have 32 ribs that curve up and to the left; these were formed in a pattern mold. The bottom has a ring of light scratches and wear near the edge.

Dimensions Primary Dimensions (height x diameter): 4 1/4 x 2 1/8in. (10.8 x 5.4 cm)
