

Basic Detail Report

Title Cucumber Straighteners

Date 1800-1850

Primary Maker Unknown

Medium Blown colorless lead glass

Description Group of three blown colorless lead glass cucumber straighteners, each with a flared rim, thin, tapered walls, and an open bottom edge. The bottom edge of each straightener is not even. There are a small number of bubbles and only a few seeds, or pieces of unvitriified matter, in each straightener. There are a few spots of dirt and paint adhered to cucumber straightener .2. There are three connected chips in the flared rim of .3. There is one small chip in the glass at the end of .3.

Dimensions Primary Dimensions (length x diameter of each straightener): 10 3/4 x 2 1/2in. (27.3 x 6.4cm)
