

Basic Detail Report

Title Milk Pan

Date 1830-1840

Primary Maker Horace Staples

Medium Blown colorless non-lead glass with a light green tint

Description Milk pan made of blown colorless non-lead glass with a light green

tint. The milk pan has a thick, slightly flared rim with a folded edge, tapered

sides, and a medium kick with a rough pontil mark in the center of the bottom.

There is a ring of scratches on the bottom edge of the milk pan. Additional

scratches are located on the interior bottom, over the pontil mark. Kick: An

indentation in the bottom of a drinking glass, bottle, or other glass object. Pontil

mark: A rough place on a blown glass object where the solid metal rod, or pontil,

is cracked off the object after final shaping and decoration. Pontil marks can be

polished to achieve a smooth surface.
