Basic Detail Report

Title Dishes

Date 1860-1880

Primary Maker Unknown

Medium Pressed colorless lead glass

Description Pair of pressed colorless lead glass dishes, each with a round rim, tapered sides, and a flat bottom. The pattern is pressed into the underside of each dish. The pattern consists of several concentric bands of decoration. A circle in the center of the dish is surrounded by a hexagon, and then a band of triangles and diamonds, creating a star pattern. This is surrounded by a band consisting of four radiating lines alternating with an impressed circle. Around

this, on the sides of each dish, is a band that alternates between an impressed

circle and twelve raised rectangles. The bottom edges of each dish have a ring of

scratches and light wear.

Dimensions Primary Dimensions (diameter of each dish): 4 1/4in. (10.8cm)
