Title Mugs

Date about 1795-1800

Primary Maker Edward Danforth

Medium Cast pewter

Description Pair of cast pewter mugs, each with a cylindrical body with straight, tapered sides. Each mug has a solid, cast handle that is soldered onto the body; the S-curve handle is flat on the top, rounded on the inside, and has a rounded terminal at the bottom. Each mug has two plain, narrow bands: one at the rim and another three-quarters down the body. Each mug has tapered molding

Basic Detail Report

around the base and has a flat bottom. Both mugs have overall light scratches

and nicks. Both have been polished and had larger dents removed. Mug .1: The

interior and underside have visible skimming marks and chatter marks. The

terminal has visible finishing marks. The outermost point of the handle has one

wide dent. Mug .2: The outermost point of the handle has several small dents.

Dimensions Primary Dimensions (height x width including handle x depth at

base of mug .1): 6 x 7 x 4 3/4in. (15.2 x 17.8 x 12.1cm) Primary Dimensions (height

x width including handle x depth at base of mug .2): 5 15/16 x 7 x 5in. (15.1 x 17.8

x 12.7cm)
