Title Infant's Dress

Date about 1816

Primary Maker Mary Maria Allen

Medium Hand-stitched white dimity

Description Hand-stitched white dimity infant's dress. The dress has a casing at the neckline with a drawstring at front and back to adjust the fit. About one inch

Basic Detail Report

below the neckline, there is a second casing across the back, containing a second drawstring that adjusts the fit in the back. The dress has very short sleeves with scalloped edges. The sleeves are cut separately and are stitched to the dress at the armholes; they extend above the height of the neckline. The dress is seamed down the full length of each side. The bottom hem is finished with a scalloped edge that match the edges of the sleeves.

Dimensions Primary Dimensions (length x width across the bottom): 23 1/2 x 19 1/2 in. (59.7 x 49.5cm)
