Basic Detail Report

Title The Hollister House, Wethersfield

Date 1882

Primary Maker Edwin Whitefield

Medium Lithography; colored printer's inks on wove paper

Description A center-chimney Colonial house with overhanging second and third stories is surrounded by an overgrown grassy lawn. The house appears to be in dilapidated condition, with a wooden stairway detached from the door to which it leads and lumber piled near a cellar hatchway. Evergreen trees are at the left, a deciduous tree at the right. A rail fence, fields, trees, and another house are in the background.
