Basic Detail Report

Title Bridge at Middletown

Date 1936-1938

Primary Maker Winfield Scott Clime

Medium Drawings; watercolor over graphite on wove paper

Description A steel truss bridge is under construction. Platforms with cranes are attached to the superstructure. There appears to be another platform with construction sheds at the base of one of the piers supporting the arches of the bridge. Cables hang from the arches. A barge is passing behind the pier. A steam tugboat is in the foreground. In the background, an iron railroad bridge crosses the Connecticut River. Part of a road, a fence, and foliage are in the foreground. The far shore of the river is in the background.
