

Basic Detail Report

Title View of a tree in a stream

Date about 1895

Primary Maker Horace Bushnell Cheney Sr.

Medium Photography; gelatin emulsion on glass

Description Leafless trees and bushes stand in floodwaters from a stream that flows beneath an arched stone bridge in the background. Patches of old snow are on the grassy lawns at left and right. Scattered evergreen trees are in the background. A tall pole at the right may be a flag pole.

Dimensions Primary Dimensions (height x width): 4 x 5in. (10.2 x 12.7cm)
