## Title Canadian Waterfall

Date 1900-1910

Primary Maker Horace Bushnell Cheney Sr.

Medium Photography; gelatin silver emulsion on plastic

Description View of a small waterfall. There are a few logs piled up along the right side, near where the water rushes down over the edge. There is a very

large, mostly flat rock at the top. A log runs perpendicular to it, parallel to the edge of the waterfall, and obstructs the flow of water. The bank along the river at the top is lined with skinny trees.
